Location	Portsmouth, NH	Quality Standard	ISO 9001 Certified Manufacturing Facilities
Website	www.k2castings.com	Warranty	Full 1 year warranty on all parts

WHO WE ARE

K2 Castings is a Portsmouth, NH based Service-Disabled Veteran-Owned Small Business (SDVOSB) with 19 years of experience supplying premium wear parts and expert consulting to industrial recycling and waste processing facilities across the United States. Founded in 2007 by U.S. Coast Guard veteran Tom Stanek, we built our reputation on a simple promise: deliver the highest-quality parts with no shortcuts, grounded in real hands-on shredding expertise. Backed by 40 years of experience spanning shipbuilding, industrial mining, demolition, recycling plant construction and operations, and wear resistant castings, we deliver field-proven solutions from concept through full operation.

CORE CAPABILITIES & PRODUCTS

Shredder Wear Parts

- Hammers & Shredder Grates
- Pin Protectors
- Anvils, Breakers & Cutter Bars
- Spider Caps & Rotor Caps
- Caps, Hammer Pins & Bolts
- Feed Roll Teeth & Liners
- Matching the right materials for each application

Combustion & Conveyor Parts

- Combustion Furnace Grates
- Waste-to-Energy (WTE) Heat Resistant Castings
- Conveyor Wear Parts
- Custom-Engineered Enhancements
- Shredding, Sizing, Screening
- Metals Separation Parts & Support

Consulting & Project Management

- Shredder line installation and facility construction for throughput
- Machinery rebuild & relocation
- Non-ferrous separation systems
- Industrial construction management
- Air scrubber & stormwater experience
- OPM services via sister company Abby Industrial

Why K2 Castings

- Superior wear and value
- ISO 9001 certified manufacturing
- Full 1 year warranty on all parts
- Vendor-neutral: not tied to any OEM
- 19-year track record of on-time delivery and quality
- Supports supplier diversity requirements

K2 CASTINGS

Runs Tough. Wears Long.

SERVICE-DISABLED
VETERAN-OWNED
SMALL BUSINESS

KEY DIFFERENTIATORS

Hands-On Expertise: Our team has installed, run, and repaired the equipment we supply parts for. This real-world knowledge means faster diagnosis and better part recommendations — not just a parts catalog.

ISO 9001 Manufacturing: All wear parts are manufactured at a proper ISO facility using our proprietary heat-treat cycle and metallurgy, engineered to outlast standard OEM and aftermarket alternatives.

OEM-Independent: Because we're not tied to any single manufacturer, we can supply and recommend wear parts for virtually any industrial metal shredder on the market — honest advice and solutions to fit CLIENT needs.

SDVOSB Certified: As a verified Service-Disabled Veteran-Owned Small Business, K2 Castings helps customers meet supplier diversity requirements on state, municipal, and government-adjacent contracts throughout New England and nationally.

Full-Service Partner: Beyond parts supply, K2 Castings and sister company Abby Industrial offer end-to-end project management for industrial recycling facilities — from equipment installation to complex capital projects in the tens of millions.

PAST PERFORMANCE & CUSTOMERS SERVED

K2 Castings has a proven 19-year track record supplying quality wear parts and consulting services to federal, industrial, and commercial customers across the United States, including:

- Federal government agencies and contractors
- Industrial shredding and recycling facilities
- Waste-to-energy and combustion facilities
- Scrap metal processors and recycling yards
- Global support and shipping
- Municipal and State recycling operations
